

Sprint Retrospective

Iteration TEMPLATE

Project Group		#GoGreen	7			
User Story	Task	Task Assigned to	Estimated Effort (in hours per person)	Actual Effort	Done	Notes
Server	Implement and Test Web API functionality	Dorka	10	11	No	Harder than anticipated, but should be done by next week.
Client	Finish Implementing and Testing Client methods	Yash, Calin	10	10	Yes	Calin had to help.
Client	Implement and Test Friends Client Methods	Yash, Calin	10	10	Yes	Calin had to help.
Client	Finish Implementing Client methods	Yash, Calin	8	8	Yes	Calin had to help.
GUI	Create Friends page	Danila	8	8	Yes	Page was created and connected to Client
GUI	Connecting new GUI pages and Client methods	Danila, Calin	7	7	Yes	All methods necessary for Demo 3 are connected.
CI	Implement CI pipeline on Client repository	Calin	7	7	No	Calin had to work on the Client because things were not getting done.
GUI	Create a page for each different feature	Pradhyumnaa	7	7	Yes	Each feature necessary for Demo 3 has a page.
Database	Populate the DB on Heroku	Francine	1	1	Yes	Database now has the data necessary for Demo 3.
Server	Implement and Test monthly and weekly views of CO2 tracking	Francine	5	5	Yes	Methods and tests were implemented so that tracking is facilitated on the Client.
Server	Polish server methods and adjust necessary tests	Calin, Francine	6	6	Yes	All necessary alterations were made.

Main Problems Encountered

Problem 1 Work was not done on time

Description Some people had issues finishing their work.

Reaction Others had to work overtime to compensate.

Problem 2 Client had to be re-written

Description Client had to be re-written with restTemplate so that tests could be mocked.

Reactions Calin had to work on Client (even though that was not assigned to him) so that we could make the demo deadline.

Adjustments for next Sprint Plan

- Adjustment 1** More accountability.
- Adjustment 2** Better communication.
